In reference to O:2023cv03913. I attended RTP ~~19 Jan 2024~~ and have come to realize I was deleted from the RTP Computers on 14 Feb. The doors locked at 21:56 Saint Cloud time and I was not allowed to leave till the nurse said I could @ 06:00 AM. I attended and led Team 3 Morning meditation where my service animal Maggie was lunged at by another Veterans Dog whom I reported to staff. @ 08:00 AM I was "Asked to leave the program" though unknown to me at the time, I had already been deleted from the system and that's why all attempts I made to finish my program were denied. Ashley G, Brendan McCullum, & Crystal F had changed my Discharge date on 08 Feb 2024 without any notification & a "recommitment" I did not agree with as I do not agree writing information I am asked to provide when I am on a directory and its My info is a Hippa violation or contract breach to begin with. Staff Notified Brian Stohl of Minnesota Monitoring LLC that I was already discharged. I did not.

Know who was in charge of my care but I notified staff at RRTP front desk I had a legal emergency to tend to. (I was told I would be jailed if I didn't provide breath samples at 13:00 that day and needed to swap out my monitor (in patient effects) for one that worked correctly. I informed staff of the emergency and said I would return for discharge and to collect my property still in 2-228. Brian had my monitor exchanged the morning of 16 Feb. I met ED at Bldg A and he escorted me to RRTP where we were told I was not allowed to be after the nurse asked me to say the information I was accused of contract violation for while in RRTP. I left ED and requested my discharge summary. Around a month later, the summary revealed I was "Discharged" on 14 Feb yet kept overnight "undocumented" and 15 Feb a provider fabricated an appointment and aftercare instructions I was not physically present to receive and someone wrote in "Geraldines" Note that I left in a POU with all property when I didn't have a POU on campus or any property besides a MN Monitoring LLC monitor I was told to swap out or be jailed.

Please add this notice to my "Chart" (3)  
For reference. I will submit my  
copy to the Federal Judge appointed  
to my civil case for submission on  
"Docket" and keep a copy for my own  
reference. Its my understanding through  
failure that the courts get the  
original.

I also need permission or a means  
to schedule appointments for services.  
Scheduling isn't available for like R.O.I,  
Praying in the Chapel, or a therapeutic  
round of Disc Golf as MyHealth UET  
and Mental Health appointments can't  
be made to exercise those "Rights".

I am afraid of your officers and staff  
for the malicious approaches they take to  
me under what is very obviously unwarranted  
and false pretense.

I will not be denied merit or valor I  
have earned or progress I have made  
for officers who do not respect my  
Human Rights. I feel "the same" of  
Doctors, Staff, and Social workers who  
have stolen my Honor and Valor by  
denying it.

I have since been told I am restricted and am essentially unrecognized by the VA Healthcare computer system. Doctor Paul Riteman saw me for a rule 20 assessment and told me I am being neglected and abandoned by my care team and I agree based on provider Notes. I have zero aftercare established and don't even know where I was "discharged to" because I did not get Discharged. I got Deleted and swapped out for someone else and there wasn't even documentation of me being admitted on the Day my providers Did it. I am at a complete loss as to what my mailing and residential addresses are and Do not want to be held accountable for it. I am a 100% disabled veteran, not a lawyer or Doctor and I am far from okay with the way my medical records and history are being Misrepresented and my "Care" team are managing or in my opinion, Mis-managing my healthcare. I do not consent to being treated through apps or mobile devices as they cause more harm than help and literally Cost me \$ to obtain service through.

(S)

I do not know how to re-engage my recovery or treatment when I can not even verify my own Identity, residence, or mailing address as a Human being. I'm of the opinion Apps & phone screenings for care are Discrimination. I need care in person, as a person, by people. I am not a phone nor do I have the desire to continue to morally injur myself or Risk being admitted to acute units when "secure messages" Don't even meet criteria for true communication as explained by my interpersonal Communication professor. We are just sending message after message after message. Nothing is reiterated or confirmed. It is Not true communication. I do not feel communicated with over phones or through apps and "secure messages".

Thank you for your time and Service to those who serve.
